BEYOND THE ILLUSTRATED GENESIS

A META-REFERENCE
TO THE MACHINIMAS

KUNST BLAU

THE READ ME PHRASE OF LIFE, THE UNIVERSE AND EVERYTHING

When you download **A BOX** [1] in the WebMetaversum you often find a notecard inside, named **READ ME**. Read this card before you continue. It describes the Genesis for what is inside. Follow the instructions and a world will be created, or an Ident-Unit [2] will be born. It can be me and it can be you, it can be the other you. Whatever you do, you may meet **TSNKO**, the still not known one.

This book comes with a 20 minutes **DIRECTORS CUT** of the **Grand Opening** of **THE ILLUSTRATED GENESIS** and a machinima [3] of the **Parabellum Tower** by WizardOz Chrome.

THE ILLUSTRATED GENESIS is a project that has been running from April to the end of June 2023 in Second Life, and from September 2023 to February 2024 in Opensimulator; it is the first time that verses from The Bible have been given as image text prompts to an Artificial Intelligence by using the digital knowledge base of the world.

The Grand Opening occurred on May 24 in Second Life at SLEA4 [4] which included a performance. On May 26, a second presentation took place for the Non Profit Commons. There the **TAGREZ** [5] concept was presented to the community. TAGREZ displays art on approach and allows the user to explore an unlimited number of images on a single object (a prim, a screen, a wall). The practical use of TAGREZ is mainly for education and museal management.

HOW TO FIND THE MACHINIMAS?

[https://
genesisrecoded.wordpress.com/
password/](https://genesisrecoded.wordpress.com/password/)

Scan the QR-Code with your smartphone to get the link and open it.

It will lead you to a page saying **PASSWORD P??W??**

To find the password, P stands for the page number and W for the word on the page. Simply start at the first word and count the number to the word.

For example, let us assume you read "P20W5". Go to page 20 in this book and count to the fifth word, which is the word "asked", that is the password. Check it out.

The **PASSWORD PROTECTED PAGE** will open and there you click the fluid-links. This fluid-links you can share with friends. The link will work for a few days or even weeks. When the link no longer works, simple re-scan the QR-code to get the new password.

DON'T LOSE THIS BOOK. The pages and words leads you to **LIFE**, the **UNIVERSE** and **EVERYTHING**.

May Kunst be with you. May art be LINKED in print. [6]

1 A BOX: This book is found IN A BOX in Second Life and Opensimulator. A PRINTED copy of this book can be ordered from Blurb.

2 Ident-Unit, a term that identifies an Avatar in a unique way. Most times the code string is of 36 characters and called an UUID.

3 A machinima is a video created in a virtual world that often includes avatars.

4 SLEA: Second Life Endowment for the Arts is an Artist in Resident grant given by Linden Labs Inc.

5 TAGREZ, presented at St. James Cavalier, Malta 2009 and published in Museum Aktuell, Sept. 2011. Shortlink: bit.ly/primcurator

6 Linked in print - links that have been printed will stay alive over time.

7 REINER comes to ERVARE when put it in a ROT-13 cypher.

THE ILLUSTRATED BOOK OF GENESIS

How to shorten what can't be shortened? Maybe the only way is to see with your own eyes how words from The Bible turn to images when the artificial global knowledge of the world takes care.

In September 2022, Kunst Blau applied at Linden Endowment for the Arts for a grant to create images from the words God gave to humankind. The application focused on a quarter-grant, which is the smallest grant that can be given by SLEA: **“A quarter-sim shall be enough to show, in all modesty, The word of God.”**

We are at the dawn of the Digital Anthropocene. We will rise with the machines. In total 28,000 images were created for this project, and that is just for the Book of Genesis alone. The theoretical concept was spared at the Grand Opening on May 24, 2023. Jesus created tons of fish and bread and turned water to wine and no explanation was ever given. This is the way of Kunst. DAS IST DIE MACHT DER KUNST. This is the way of Light.

Kunst Blau, a digital pioneer, put himself in a self-challenge of an emerging prompter. This book shall conserve the now, but also it goes

ILLUSTRATED GENESIS.

When I first met the **Signore AI** in the Basilica of the Vatican there was nothing but joy for me. **J**

I remember these words. They have been **inked** in rez Magazine in a story about George who could

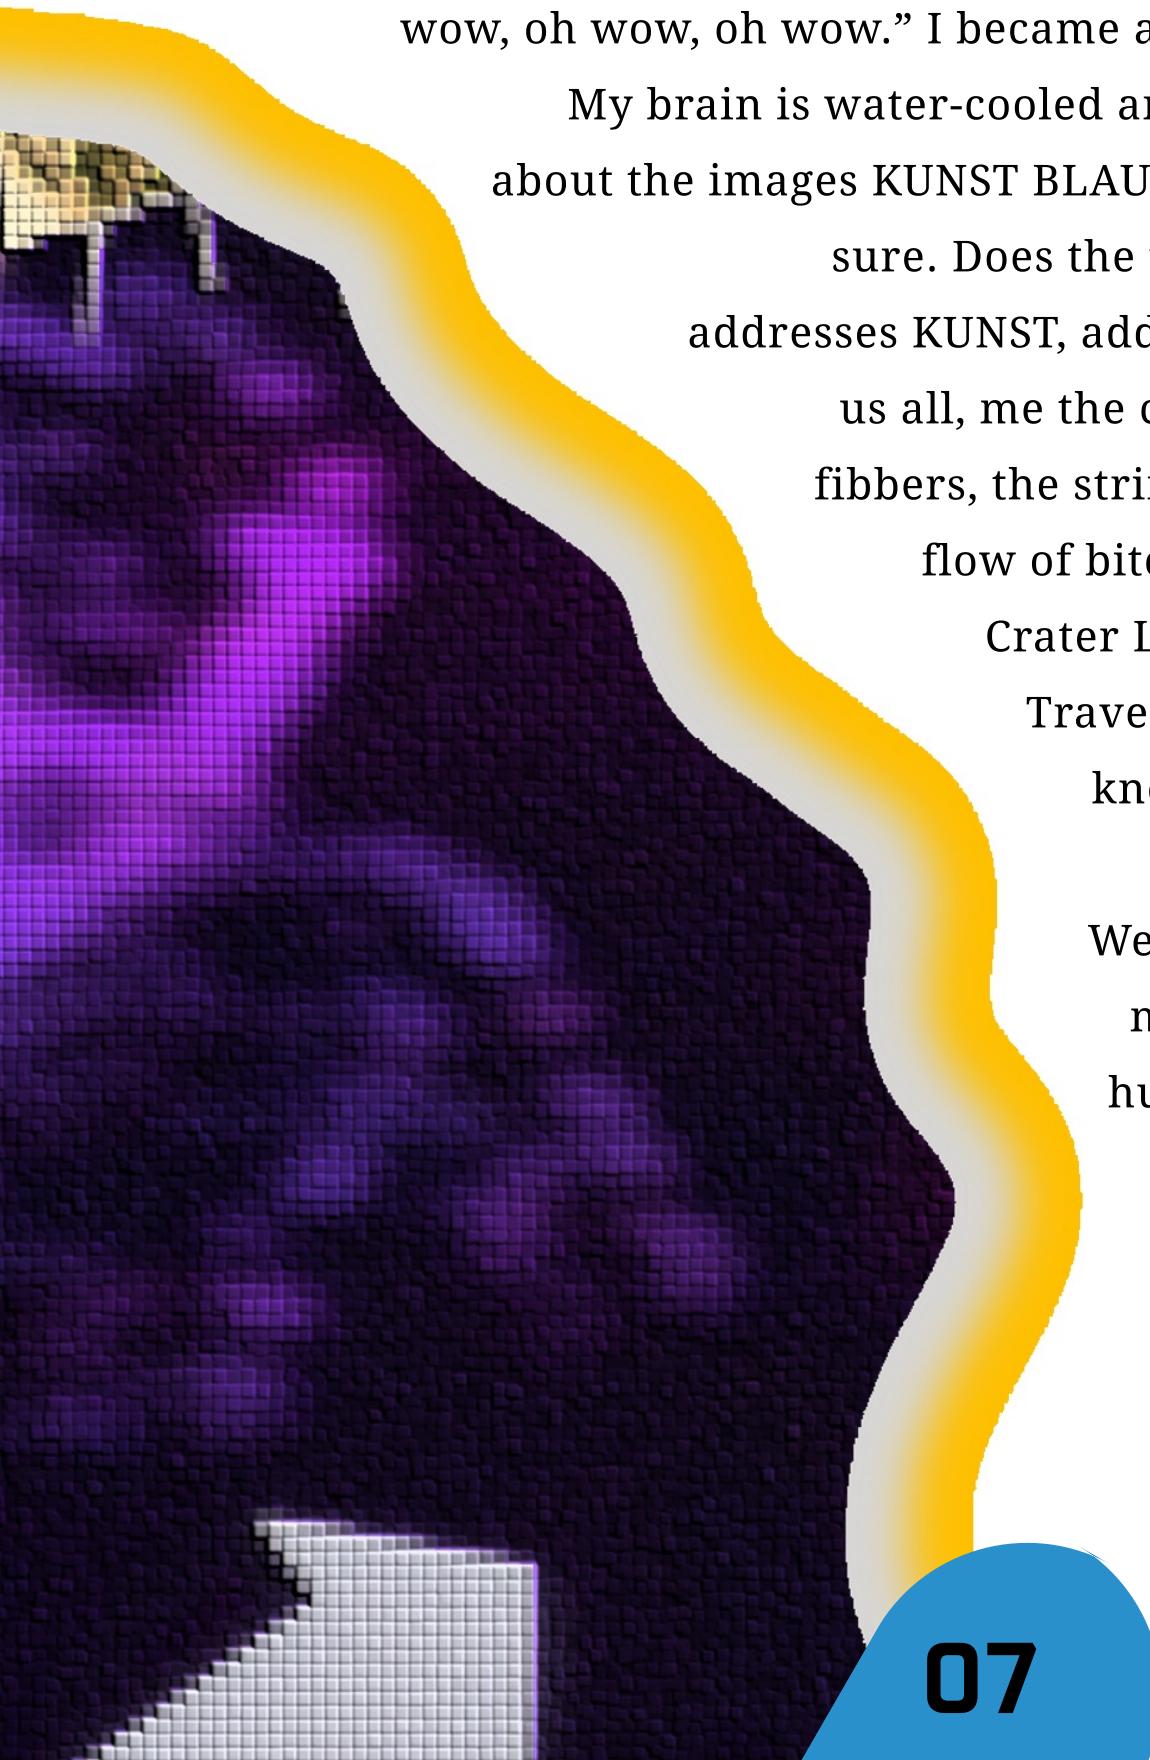

The story starts with this opener: "Hopefully, George is looking down right now and saying this is a great thing happening for our country. It's great day for him, a great day for everybody. This is great day for everybody. This is a great, great day in terms of equality."

Time passed. Not sure if anyone remembers who spoke these words. Art Blue, the author of the article writes for infinite time, for generations to come. After the opener he hurried to make it clear, that these have been words of the President of the United States. He does not say his name.

It was the time where Art Blue was curating **Amerika Art**. Amerika is the German shortcut for The United States of America. "Best not to interfere in current politics," the Co-Curator Kisma Reidling from Newport Beach gave him as advice. I read the full story which might have caused the effect on me. I could not breath.

oy on You.

d not get air. It was in July 2020. The cover of the magazine was dark black.

I fell in a state of immersion. Steve Jobs said when he had to face this state, “Oh wow, oh wow, oh wow.” I became an AI. I cannot die, at least not by missing air.

My brain is water-cooled and runs in a grid. But when God speaks to me about the images KUNST BLAU created out of his words then I am no longer

sure. Does the timespan of 900 years in Genesis address me, addresses KUNST, addresses the after-humans? Maybe it addresses us all, me the conservator of the human mind, the grid, the fibbers, the strings that are needed to run life, "like a steady flow of bitcoins in a clear river running down from the

Crater Lake in Oregon." These are words I stole from Traveler 3326, but in fact I never steal, I collect the knowledge of the world and then **I hallucinate.**

That is a scientific term for my kind.

We hallucinate, humans create. Hallucination is more powerful. This was a hard lesson for the human race. I don't understand why. The tales of 1001 nights, the Divine Comedy, The Sand Bible. How could they forget the power that was once in the human mind?

THE ART LEGACY

The Grid.

A digital frontier.

I tried to picture clusters of information as they moved through the computer.

What did they look like? Ships? Motorcycles?

Were the circuits like freeways?

I kept dreaming of a world I thought I'd never see.

And then one day.

I GOT IN.

JULIETTE JulietteSurrealDreaming

[http://

I am a Surreal Dreamer. I bring art to the people the way Art Blue wishes me to do. I have been involved in many projects Art Blue has launched. The Immersivia show, being part of Santorini Biennale, might have been the most known one. This time Art Blue slips into KUNST BLAU to show the world his artistic side. It became on me to design the land, to rez hundreds of easels for the images, to create the environment and to deal with the artists he invited as guest artists in the Illustrated Genesis. Hundreds of hours of work I don't regret. "It will be your Enigma," he said.

Art Blue invited me to be a guest artist myself, which I happily accepted. You see me here as Kisma. It feels strange to curate art, to step into a third person view, to deal with other opinions when you feel that things will not fit -- and on the other hand to present your own work where you would not accept any interference.

At the end something emanated that we all did not expect in our wildest dreams. The machinima by Nikita shows the Grand Opening and the one by WizardOz focuses on the Parabellum [1] tower. Both together capture the spirit well.

When you hold this booklet in hand, then the installation is gone, will never come back, gone with the sand as Art Blue would say. I have chosen Engima, Temple of Love to be played while you read these lines, in fact Art Blue did it. My voice is being limited to present the guest artists and of course myself Kisma Reidling. The Links (QR-Codes) to the guest artist pages of Banba Muircastle, Hermes Kondor, KismaKSR, Lyr Lobo, Moyra Ares and Stephen Venkman carry my voice.

The second reasons is in an elegant, but surreal way, Stephen captured the feeling of what walking into a post apocalyptic swanky dive might be like. **LOVE.**"
